Karl Rove Speaks up for the American People
 28 October 2009

- Former Deputy Chief of Staff and Senior Advisor to President George W. Bush unites industry at the NO C&G Summit

New Orleans is preparing to welcome the biggest names in Oil when the illustrious Next Generation Oil and Gas Summit comes into town. Key personnel including Commissioner Elizabeth A. Jones and Brian Rovell - President of Total ESP have confirmed attendance to discuss the US reliance of foreign energy markets, technology investments to improve efficiency, building jobs for the American people, and increasing government interventions on the Energy market.

The U.S. seems to be at the brink of losing manufacturing jobs to India and China and implementation of a near-term energy strategy would send a strong message out. Karl
